NiranjanGhising

Niranjan Ghising

SUMMARY

Driven by a lifelong passion for computers, I am a disciplined and fast-adapting Python developer eager to embrace new challenges. Proficient in Python and SQL, I've developed projects like Hangman and Rock Paper Scissors, showcasing my ability to learn quickly and listen effectively. I'm ready to contribute my skills and enthusiasm to innovative teams and make a meaningful impact.

PROJECTS

Hangman Game

Jan 2024

- Mastered: Implementing complex loops, defining functions, and making strategic decisions.
- Key Aspects: Interactive user input, advanced string manipulation, and intricate game logic.
- Real-World Application: Creating engaging interactive applications and games with real-time user feedback mechanisms.

Rock-Paper- Scissors Game

Jan 2024

- Gained Expertise In: Utilizing conditional statements and generating random events.
- Key Aspects: Robust conditional logic, probability-based randomization, and dynamic user interaction.
- Real-World Application: Developing sophisticated decision-making algorithms and realistic simulations grounded in probability.

Student's Grade Project

Feb 2020 - Jan 2021

- Excelled In: Comprehensive data handling, precise calculations, and professional output formatting.
 - Key Aspects: Efficient data processing, arithmetic accuracy, and clear result presentation.
 - Real-World Application: Constructing educational tools like grade management systems and data analysis applications for academic environments.
-

EDUCATION

B.Sc. (Hons.) Information Technology

Sep 2024

Asia Pacific University of Technology & Innovation

- Develop a Personal Development Portfolio to support career aspirations
- Develop skills in imaginative problem-solving and decision-making.

+2 in science

Mar 2022

Trinity International College

- Offering a wide & deep study of different subjects.
 - The +2 helps in maintain the quality and popularity of +2 education.
-

ADDITIONAL INFORMATION

- **Programming Skills:** Python, SQL, Java
- **Tools & Platforms:** Github, VS Code, MS SQL, PYcharm
- **Soft Skills:** Communication, Problem Solving, Analytical skills
- **Languages:** English, Nepali, Maithili, Hindi
- **Certifications:** Python Programming (Programiz.com)
- **Volunteer Certificate:** InnovateEXPO
Career Conclave 2024
9th Management & IT Education Fair 2024

July 2024
August 2024
August 2024
